**College of Agriculture  
 & Life Sciences**  
 Controlled Environment Agriculture Center

presents

# JANUARY 2017 HYDROPONIC GREENHOUSE CROP PRODUCTION INTENSIVE Courses

## Intensive Options

January 2 – 7, 2017

Focus on Tomato Production

January 6 – 9, 2017

Focus on Lettuce Production

January 2 – 9, 2017

Focus on Tomatoes and Lettuce

### UP CLOSE AND PERSONAL WITH INSTRUCTORS AND CROPS!

- Hands-on intensive training in hydroponic crop production focusing on tomatoes and/or lettuce
- Trainings, balancing classroom and greenhouse time, is provided by professionals in the growing fields of Hydroponics and Controlled Environment Agriculture (CEA)
- Round Table Discussion with Top Greenhouse Engineers
- New topics this year include a section on organic hydroponic nutrition and discussions on vertical farming and lighting

### INSTRUCTORS:

Tomatoes: **Stacy Tollefson**, Ph.D.,  
 Assistant Professor/Hydroponic Specialist, The University of Arizona  
 Lettuce: **TBA**

Special Guest Speaker: **Dr. Merle Jensen**, Consultant:  
 Greenhouse Hydroponic Crop Production

#### Topics include:

- |                     |                              |
|---------------------|------------------------------|
| • Greenhouse Basics | • Crop Maintenance           |
| • Hydroponics       | • Pruning                    |
| • Crop Layout       | • Harvesting                 |
| • Pollination       | • Plant Nutrition            |
| • Food Safety       | • Integrated Pest Management |
| • Business Basics   | • Organic Nutrition          |

### LOCATION & INFORMATION:

#### Registration Fees:

Tomato Intensive: TBA, Lettuce Intensive: TBA  
 Both Intensives: TBA
